Experience

Product designer, BenQ

Aug 2023 - Nov 2025 | Taipei, Taiwan

- Owned end-to-end product design—from user research to hardware, firmware, and software UI—for projectors, monitors, and sports science lab systems.
- Conducted user research, competitive analysis, design sprint, and usability testing for projector iteration, resulting in a 148% increase in portable projector sales within the first year.
- Established and led a structured usability testing workflow across the design center, standardizing the evaluation process.
- Leveraged authorized APIs to aggregate and analyze user feedback at scale, enabling product teams to uncover user needs across multiple product lines.

Product designer, Fox Tail Studio

Sep 2021 - Jul 2023 | Hybrid

- Designed applications to support smart campus development, including an AR campus tour app featuring the university mascot.
- Improved user experience through conducting user research, competitive analysis and usability testing.

UI UX design intern, Crypto-Arsenal

Feb-Jun 2021 | Remote

- Contributed to the conceptualization and design of a SaaS platform for automated cryptocurrency trading, collaborating with designers and developers to align design goals and deliver finalized solutions.

UX researcher, 104 Corporation

Feb-Jul 2021 | Remote (Capstone project)

- Conducted user interviews, questionnaire-based research, competitive analysis, heuristic evaluation, and usability testing to identify user needs and inform product iterations.

Design intern, Meet.Jobs

Jul-Sep 2020 | Taipei, Taiwan

- Designed recruitment platform landing pages and event pages; supported data analysis with the marketing team.

Activities
